

HOSTED VOICE

Hosted Voice is a high-performance, no-maintenance Hosted PBX phone system that gives your business a competitive edge.

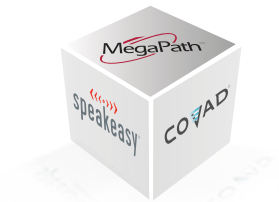

Hosted Voice gives your business a competitive edge with low start-up costs, affordable long-distance, and advanced productivity-boosting features. There's no PBX or IP PBX equipment to buy or lease, and no need for an expensive maintenance contract.

COMPLETE SOLUTION. Hosted Voice includes employee calling plans, long-distance options, and your choice of business-class connectivity. It delivers all the functionality of a traditional phone system, plus enhanced flexibility, effortless scalability, significant cost savings, and advanced features.

COST SAVINGS. Hosted Voice requires only IP phones and a small piece of voice gateway equipment. That makes your up-front costs much lower—up to 50% less than traditional telephone service, which requires you to purchase a PBX or Key system. You don't pay maintenance fees, and there are no charges or cabling requirements to move, add or change employees. You'll also save month-to-month with a choice of affordable long-distance options, including carry-forward minutes so you never worry about wasting money.

VOICE QUALITY & RELIABILITY. Using our broadband to deliver your Hosted Voice service allows us to ensure clear voice calls, monitor the system, and provide industry-leading service level guarantees. Our private network prioritizes voice traffic to provide Quality of Service.

ADVANCED FEATURES. Hosted Voice saves time. It's ideal for keeping a mobile or distributed workforce connected, and you'll never miss another call with features like Voicemail as Email and Find Me/Follow Me. These features are easy to manage through an intuitive web portal or MS Outlook Integration.

The New MegaPath

Triple-Strength Business Solutions
Speakeasy, Covad and MegaPath have combined to form one company serving small, medium and enterprise businesses nationwide.

BENEFITS AT A GLANCE

Lower Start-up Costs and Monthly Savings.

No PBX equipment to buy or lease. No maintenance contracts or fees for account changes. All you need are IP Phones and a voice gateway connected to your modem or router.

Flexible Calling Plan Options.

Buy only what you need with a range of employee calling plans and long-distance options, including company-wide shared minute plans.

Work Smarter with Advanced Features.

Easy-to-use features include Remote Office for mobile and virtual workers, Voicemail as Email, Find Me/Follow Me, and many more.

Voice Quality.

Because we have full control over our network, we can provide true Quality of Service (QoS) to ensure crystal clear call quality.

“We’re really happy with the advanced features and long distance savings we get with Speakeasy Hosted Voice. We have a lot of employees on the phone all the time with customers all over the world, but we’ve had no voice quality problems. Plus, we saved about \$20,000 on initial set-up over a hardware solution.”

- Thomas Register, IT Manager, Mid-Continent General Agency

The New MegaPath Advantage

Covad, Speakeasy, and MegaPath have united as one company. Here’s what that means for your business:

End-to-End Nationwide Infrastructure.

Our privately managed MPLS network provides exceptional performance, total redundancy, and the flexibility to deliver true voice Quality of Service.

Complete Service Portfolio.

We offer a full range of business broadband, voice, MPLS, VPN, and security services.

Unbeatable Experience.

We’ve been serving businesses with innovative communications services for 16 years.

Superior Customer Support.

Our friendly technical experts respond quickly and efficiently 24/7/365.

ADVANCED FEATURES THAT HELP YOU WORK SMARTER

Hosted Voice features help you work smarter and increase your overall productivity. No more phone tag, missed calls, or hotel long distance surcharges. You decide who you keep in touch with, how, when, and where.

FEATURES	DESCRIPTIONS
Find Me/ Follow Me	Allows you to define how incoming calls are routed or forwarded for individuals or groups of inbound callers—ensuring that you receive important calls whether you’re at your desk, on the road, or anywhere else.
Remote Office	Turn any phone into your office phone, allowing you to work remotely while avoiding personal long-distance fees and hotel calling surcharges.
Voicemail as Email	Receive your voicemail messages as .wav file email attachments.
Voice Communications Toolbar	Access features directly from Outlook and Internet Explorer. Fully integrates with Outlook contacts directories.
Included Features	Caller ID, call forwarding, call hold, call transfer, call waiting, 3-way calling, redial, do not disturb, speed dial, hook flash, e911 service, extension dialing across sites, calling line ID, simultaneous ring, sequential ring, selective call forwarding, teleworker, and more.
Optional Add-Ons	Auto attendant, hunt groups, conferencing, faxing, attendant console, toll-free numbers, call center, call center, vanity telephone numbers, and growth reserved numbers.
